Tom,

Enclosed are the forms for Beth and yourself.

Two maps titled Attachment A & B are for your bond. I believe these two maps cover the needs we discussed during my recent visit.

The additional three maps are for Beth in regards to the exploration reclamation contract for Poverty Point. These maps are titled Attachment 1,2,3.

In addition I have reworked the actual reclamation form and mailed it straight to the Devils Slide Plant for John Todd's (Plant Manager) signature. He will then mail that form to Beth Erickson ASAP.

The last form enclosed is the surety estimate for the Poverty Point main reclamation contract. These estimates were based off the 2003 estimate, but adjusted for the increased acreage and extended for 5 years from 2005.

I believe this covers everything we discussed on my last visit.

If you need any other items or have any further questions please do not hesitate to contact Tom Newman or myself.

Sincerely,

Brian Ward
